

We learned from the media that our new Prince The Gyalsay will be named on 16th April 2016 coinciding with Zhabdrung Kuchey.

The First Year Architecture students have done an assignment on the beautification of the area indicated above and around it under the module Arts and Graphics II. We would like to make the proposal in the area in order to mark the auspicious occasion. It is a plantation proposal with local ornamental shrubs with minimum cost . If any one has other plans for the area please let us know so that it does not lead to conflict of ideas.
